Description of Business

This business I have chosen to do my project on is the BigBoyToyz located at Vancouver and Calgary. This is a franchise owned and operated business in India that is a dealership, and car rental service. BBT offers a wide variety of supercars with several options to choose from. This is great way to for people who can make their dream a reality.

Objectives

The objectives of this project were to develop a web site that was easy to navigate, responsive to all media devices and made it a quick process for the customers to book an appointment. This web site will allow BBT to reach to more customer looking for fun and exciting driving experiences. The web site will also allow the public to learn more about the business and what they have to offer.

Site Map

Read Me

- 1) index.html is the landing page. This page gives a brief description of the business idea and the cars we have, reservation for a test drive.
- 2) about.html - This page tells about the services and about the company and services provided.
- 3) inventory.html – This page can be accessed through Our inventory menu item. Link provides the details of different supercars in our inventory.
- 4) contact.html – This page can be accessed through Contact menu item. Link gives the information about our location, founders and VP details and link to our social media pages.
- 5) Cross-reference.html - This page can be accessed through the Cross Reference menu item. Links to each of the minimum requirements needed to complete the project.
